1.	<p>http://heapol.oxfordjournals.org/content/current</p> <p>1. Integrating HIV treatment with primary care outpatient services: opportunities and challenges from a scaled-up model in Zambia <i>Health Policy Plan. (2013) 28 (4): 347-357 doi:10.1093/heapol/czs065</i></p> <ul style="list-style-type: none"> • Abstract ; Free Full Text (HTML) ; Free Full Text (PDF) <p>OPEN ACCESS Open Access</p> <p>2. Editor's Choice: Interrogating scarcity: how to think about ‘resource-scarce settings’ <i>Health Policy Plan. (2013) 28 (4): 400-409 doi:10.1093/heapol/czs071</i></p> <ul style="list-style-type: none"> • Abstract ; Free Full Text (HTML) ; Free Full Text (PDF) <p>OPEN ACCESS Open Access</p>
2.	<p>http://eurpub.oxfordjournals.org/</p> <p>FREE ACCESS Editor’s Choice: The relationship between avoidable hospitalization and accessibility to primary care: a systematic review Aldo Rosano et al.</p> <p>Read the accompanying editorial to this article here</p>
3.	<p>http://www.plosmedicine.org/</p> <p>1. Factors Affecting the Delivery, Access, and Use of Interventions to Prevent Malaria in Pregnancy in Sub-Saharan Africa: A Systematic Review and Meta-Analysis</p> <p>Jenny Hill and colleagues conducted a systematic review and meta-analysis of qualitative, quantitative, and mixed methods studies to explore the factors that affect the delivery, access, and use of interventions to prevent malaria in pregnant women in sub-Saharan Africa. Read Editors’ Summary</p> <p>2. Threats to Validity in the Design and Conduct of Preclinical Efficacy Studies: A Systematic Review of Guidelines for In Vivo Animal Experiments</p>

	<p>Jonathan Kimmelman and colleagues report their systematic review of preclinical research guidelines and make recommendations according to the type of validity threat or programmatic research activity the guidelines address. Read Editors' Summary</p> <p>3. Recent Shifts in Global Governance: Implications for the Response to Non-communicable Diseases</p> <p>Devi Sridhar and colleagues discuss how three major trends in global governance, the rise of emerging economies, the increase in multi-bi financing and institutional proliferation, have ramifications for whether non-communicable diseases will be included in the post-2015 Sustainable Development Goals agenda.</p> <p>4. Access to Drugs for Treatment of Noncommunicable Diseases</p> <p>Thomas Bollyky explains the emerging controversy over patented medicines for noncommunicable diseases and their affordability in developing countries. Another transformation in global health is required that focuses on low-cost interventions and patient-centered rather than country-focused strategies.</p>
